

AR480T

OPERATING WEIGHT
6,000 - 6,500 kg

ENGINE OUTPUT
55.4 kW (74.3 HP)

SHOVEL CAPACITY
1.0 - 1.8 m³

 **Weycor**
BY ATLAS WEYHAUSEN

FIRST IMPRESSIONS COUNT!

weycor wheel loaders are more than the sum of their parts. They reflect true passion, a fascination with technology and 'Made in Germany' quality. It's thanks to the innovative spirit of our people, their dedication to detail and their passion for powerful engine technology that this new generation of wheel loaders has been developed.

6,000* KG OPERATING WEIGHT

55.4 KW (74.3 HP) ENGINE OUTPUT

1.0 M³ SHOVEL CAPACITY

Operating data

Shovel capacity	1.0 m³⁽⁵⁾
Track width	1,510 mm
Tear out force	4,300 daN
Torque	4,310 daN
Tipping load, straight	3,627 kg
Tipping load, straight / extended	2,049 kg
Tipping load, articulated	3,208 kg
Tipping load, articulated / extended	1,812 kg
Lifting capacity at ground level	3,600 daN
Operating weight	6,000 kg

Specifications

Differing data for use of pallet forks (500 mm distance to center of gravity)*

Tipping load, straight	3,119 kg
Tipping load, straight / extended	1,852 kg
Tipping load, articulated	2,759 kg
Tipping load, articulated / extended	1,638 kg
Payload 80% even surface**	2,207 kg
Payload 80% extended boom**	1,310 kg
Payload 60% uneven surface***	1,655 kg
Payload 60% extended boom***	983 kg

Sound level

Average sound power level L _{WA} ⁽¹⁾	100.0 dB(A)
Guaranteed sound power level L _{WA} ⁽²⁾	101.0 dB(A)
Sound pressure level L _{PA} ⁽³⁾	77.0 dB(A)
Vibration values hand/arm/whole body vibration ⁽⁴⁾	< 2.5/0.5 m/s²

*Travel with load only permitted close to the ground.

** According to ISO 8313 and EN 474-3.*** According to ISO 14396, EU RL97/68/EC.

(1) According to 2000/14/EG & appendixes. (2) According to 2000/14/EG & appendixes.

(3) According to ISO 6396. (4) According to ISO 8041. (5) If you participate in public traffic

gem. STVZO only the loading shovel with the number 8059493 is allowed.

Important Information on Shovel Size / Shovel Contents:

The details contained in this brochure relate solely to the weycor shovels referred to in the respective data sheet, with the associated technical parameters and configurations on which the respective CE approval for the device is based. The volume of the specific usable shovel depends on the material-specific bulk weights (t/m³) of the shovel contents, which you can take as approximations from the data sheet's TABLE OF SPECIFIC WEIGHTS IN t/m³. Regardless of this, neither the wheel loader's permissible working weight nor its permissible tipping loads may be exceeded. If the wheel loader is equipped with shovels that are not manufactured and licenced by Atlas Weyhausen GmbH, the buyer and / or the operator is solely responsible for compliance with the relevant statutory regulations and licensing requirements – particularly those relating to road-traffic and road-traffic-licensing law.

*The operating weight may vary with different equipment.
All technical information refers exclusively to the standard device.

DETAILS THAT MAKE AN IMPRESSION

It is demanding to meet the new legal requirements for exhaust emissions. The challenge is to create also tangible benefits for our customers. We are proud to have achieved both in the development of the current wheel loader generation: more power - less consumption, plus a number of others innovations that really make a difference on tough construction sites.

Latest kinematics technology

The proven and tested weycor kinematics with its exceptional tear-out force and excellent lifting heights. Telescopic cylinder with endposition cushioning.

Hydraulic quick-change attachment

By allowing you to change the wheel loader's attachments in a few seconds, it turns the vehicle into an all-rounder.

Easy maintenance

Low-maintenance and quick, easy servicing is achieved by central, consolidated, easy-to-reach service points.

Articulated joint

The combination of pendulum joint and the rear oscillating axle provides for excellent maneuverability and cross-country mobility. Even on challenging terrain, the low center of gravity ensures exceptional stability.

Comfortable cabin

In addition to the excellent circumferential visibility in the wheel loader, its clearly arranged controls and its ergonomic design.

Powerful drive unit

weycor wheel loaders are equipped with state-of-the-art engines which combine high power reserves for challenging operations with up-to-date low emission values.

Inching Pedal

As the only manufacturer, our wheel loaders have a separate inching pedal as standard. This prevents the possibility of moving against the operating brake, in contrast to the combination of a brake/inch pedal. A generously proportioned inching range facilitates precise distribution of shearing and lifting forces. The result: less wear and lower fuel consumption.

Spring-loaded brake

The spring-loaded or negative brake in weycor wheel loaders is a closed brake system (oil bath multiple-disc brake) which holds the wheel loader securely in position on a slope when the brake or inch function is activated and automatically locks all four wheels when the engine is at a standstill. The multiple-disc brake runs in the oil bath and is particularly low-maintenance and low-wearing as a result.

INNOVATIVE ENGINE TECHNOLOGY

TD 2.9 L4 – intelligent efficient

We have been convinced of the quality of Deutz engines for over 40 years. Our cooperation with Deutz also offers numerous benefits for the AR 480T: such as the electronic engine control with intelligent connection to the drive management. This ensures the best engine performance with low fuel consumption.

Mighty performance

55.4 kW at a maximum of 2,200 rpm

Compliance with emission standards

EU Stage 5 - DOC + DPF from 2019

Deutz engine technology: TD 2.9 L4

Water-cooled 4-cylinder inline engine with cooled, external exhaust gas recirculation with turbocharging and with charge air cooling. The powerful Common Rail injection system and highly-efficient combustion process with cooled external exhaust gas recirculation ensure optimum engine performance at low fuel consumption and exhaust emissions.

Through the use of the diesel particulate filter, the engines comply with the EU Stage V emissions standard 2019. For ease of machine installation engine foot print and all major installation interfaces will stay unchanged for Stage V.

TECHNICAL DATA

Engine	
Model	TD 2.9 L4
Design	water cooled
Output	55.4 kW (74.3 HP) at 2,200 rpm
Max. torque	260 Nm at 1,600 rpm
Cubic capacity	2,924 cm ³
Number of cylinders	4 in line

Electrical system	
Operating voltage	12 V
Battery	12 V / 100 Ah
Generator	14 V / 95 A
Starter	12 V / 2,6 kW

Drive	
Output-regulated hydrostatic drive with pressure cut off and closed circuit acting on all 4 wheels.	
Speed with standard tires:	
Operating speed range	0–6.5 km/h
Road speed range	0–20 km/h
Optional high speed	0–40 km/h
1st and 2nd hydraulic gear can be engaged under load, forward/backward travel also. Forward/backward travel, speed ranges and off-position operational via weycor joystick. Drive operated by accelerator and separate inching pedal for best distribution of the hydraulic power for thrust and lifting forces.	

Brakes	
Standard brake: Multi-disc brake in oil bath acting on all 4 wheels. Supplementary brake functions via inching pedal and hydrostatic drive acting on all 4 wheels.	
Parking brake: Parking brake as springloaded brake acting on all 4 wheels. In case of standstill of engine the spring-loaded brake is automatically reactivated.	

Steering	
Fully hydraulic center pivot steering and oscillating rear axle	
Front and rear wheels follow the same track	
Steering angle of 40° to each side, ±10° angular movement at rear of vehicle	
Operating pressure of steering hydraulics 175 bar	
Emergency steering function	

Axles	
Rigid axle front, pendulum rear axle with planetary reduction gears in wheel hubs, electrically connected 100%-differential lock in front and rear axle	

Tires <small>(Special tires upon request)</small>	
Standard: 16/70 R20 MPT 14 PR – Multi-purpose tires for earth moving machines, with good traction, self-cleaning and firm stability	

Hydraulic system	
Gear pump for loading and steering hydraulics	
Priority valve favoring steering hydraulics	
Lowering brake dependent of load	
4th hydraulic section	
Loading hydraulic hydraulically pre-activated by weycor joystick, including float position	
Operating pressure 230 bar, Delivery of pump 66 l/min	

Fuel/oil capacities	
Diesel	80 Liter
Hydraulic oil	78 Liter
Engine oil	8 Liter
Front axle	5.1 Liter
Rear axle	5.4 Liter
Gear oil	0.7 Liter
Cooling liquid	13 Liter

Loading equipment	
Powerful and solid Z-kinematics	
Telescopic range 1,200 mm	
Telescopic cylinder with damping working cylinder	
Hydraulic quick change device	
Activation of all functions by weycor joystick	
Parallel movement while using pallet forks	
Locking device acc. to German StVZO for road travel	

Lifting	6.5 s
Lowering	6.0 s
Tipping	1.8 s

Equipment – Series	
Rear driving mirrors, foldable	
Heatable rear screen	
Comfortable access to cab from both sides	
Joystick with integrated proportional steering for 3rd section or swing-action control	
weycor diagnostic system	
Control lights for speed range, forward/backward travel	
Lights acc. to German StVZO for road travel	
Individually adjustable driver's seat with adjustable right arm rest	
Engine oil heating with heat exchange and 4-stage fan	
Front windscreen ventilation, variable output	
Sound absorbing ROPS cab	
Windscreen wipe and wash unit in front and rear	
Sun visor, coat hook, ceiling lamp, stow facility	
Adjustable steering column	
Heat protection glazing with largetinted screens	
Control lights for engine oil pressure, overheating, hydraulic oil temperature, battery power, parking brake and air filter	
Central dashboard with indicators for preheating, engine temperature, fuel, working hour meter	
Cyclone dust separator with Air filter control	

Equipment – Option	
Stability damping system	
High speed version 40 km/h	
Air conditioning	
Hand throttle unit	
Load check valve	
Main battery switch	
Corrosion prevention against salt	
Special paintings and oils	
Trailer coupling	
Heatable and air cushioned seats	
Auxiliary heating, comfort cab	
Radio	
Warning beacon	
Doors with sliding windows, left and right side	
Anti-theft-device with code stick	
Glass roof arrangeable	
Hydraulic start-stop system	
Diesel particulate filter	

TECHNICAL DATA
